LETTER OF INTEREST

The mission/business of Yılmaz Bilişim Ar-Ge Danışmanlık Yazılım Mühendislik ve Servis Hizmetleri Tic. Ltd. Şti. is as follows on the technological production and dissemination of brain-computer interfaces:

We are involved in the technological production and dissemination of brain-computer interfaces. Also, we support the design and development of interfaces with chips. Yılmaz Bilişim Ar-Ge Danışmanlık Yazılım Mühendislik ve Servis Hizmetleri Tic. Ltd. Şti. is very much interested in the development of novel Brain-Computer Interfaces using advanced AI methods. Such technology will be important from our perspective, as with a new BCI design, patients' lives will improve while continuously monitored. We hereby declare that considering our prior cooperation with Prof. Dr. Kemal Polat from the Bolu Abant İzzet Baysal University. Yılmaz Bilişim Ar-Ge Danışmanlık Yazılım Mühendislik ve Servis Hizmetleri Tic. Ltd. Şti. is potentially interested in cooperation with the international consortium developing the project Architecture for Personalized Multimodal Body Computer Interfaces submitted to the CHIST-ERA 2020 Call in the Advanced Brain-Computer Interfaces for Novel Interactions (BCI) area. On our part, we declare possible opportunities for sharing domain knowledge in our area of expertise at the stage of consulting the considered use cases and the evaluation of resulting AI models. We are also looking forward to potential opportunities for future exploitation of project results and applications in our Company.
